---	---

The Work Health and Safety (WHS) Checklist is designed to help MOP(S) Act employees and managers to assess WHS risks in the home office or in a privately funded office. This checklist should be read together with the 'Working from Home' guideline. This checklist was prepared referencing the NSW WorkCover Authority publication *Health and Safety in the Office Guide 2004*, and Comcare's publication *Officewise*.

It is recommended that, where practicable, a home inspection be required by the employing Senator or Member prior to approving the employee's working from home arrangements. Where an independent inspection is not practicable, the inspection should be carried out by the employee and discussed with the employing Senator or Member or their authorised person.
